PROFILE

Self-taught Frontend Developer with hands-on experience building responsive, user-friendly websites using HTML5, CSS3, JavaScript, and Bootstrap. Comfortable turning designs into clean, functional interfaces and currently expanding into React and Git/GitHub workflows. Eager to join a development team as an intern to apply existing skills, learn from experienced engineers, and grow into a professional software developer.

TECHNICAL SKILLS

Languages & Markup: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: Bootstrap, React (Learning)

Practices & Tools: Responsive Web Design, Git & GitHub (Learning), Cross-Browser Compatibility

Soft Skills: Problem Solving, Communication, Teamwork, Fast Learner, Attention to Detail

PROJECTS

Personal Portfolio Website

- Designed and built a fully responsive personal portfolio featuring a projects showcase, services section, contact form, and downloadable CV.
- Implemented mobile-first layout techniques with HTML5, CSS3, and Bootstrap to ensure consistent display across devices.

Restaurant Website

- Developed a responsive multi-section landing page including menu, gallery, and contact areas for a restaurant business concept.
- Applied modern CSS layout methods (Flexbox/Grid) to create a visually appealing, easy-to-navigate user experience.

Crypto Dashboard

- Built a JavaScript-powered dashboard that fetches and displays live cryptocurrency prices via a public API.
- Handled asynchronous data fetching and dynamic DOM updates to keep pricing information current.

Weather App

- Created a weather information interface using JavaScript to fetch and render real-time weather data by location.
- Designed a clean, intuitive UI for quickly viewing temperature and conditions.

EDUCATION

Government College University, Faisalabad

Software Engineering (5th sem)
